CAREER OBJECTIVE

- Motivated and dedicated B.Tech student in Electronics and Communication Engineering, seeking opportunities to apply theoretical knowledge in practical environments. Interested in learning and contributing to both hardware and software domains. Adaptability

EDUCATION

Bachelor of Technology (B.Tech) – Electronics and Communication Engineering

Bonam Venkata Chalamayya Engineering college- Odalarevu
CGPA: 8.49 | Year: 2023–2027

Intermediate (MPC)

Siddhartha Junior College, Kothapeta
Percentage: 86.1% | Year: 2023

SSC

Z.P.P.HIGH SCHOOL,Vadapalem
Percentage: 83.5% | Year:2021

PROJECTS

AI-Based Breed Recognition App (Hackathon Project)

Developed an AI-based application to identify animal breeds from images using Python and basic Machine Learning techniques. The system takes an image as input and predicts the corresponding breed. Worked on data collection, preprocessing, and basic model training. This project helped in gaining fundamental knowledge of image processing and artificial intelligence concepts.

Heart Disease Prediction using Machine Learning

Developed a machine learning model to predict heart disease risk using the Framingham dataset. Performed data preprocessing, EDA, feature scaling, and trained multiple classification models (Logistic Regression, Decision Tree, Random Forest, and SVM) to evaluate and compare prediction performance.

Technologies: Python, Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn, Jupyter Notebook, GitHub

Embedded Systems (Internship Project)

Developed a **Fire Alert System using the AT89C51 (8051) Microcontroller**. The project involved interfacing a flame/smoke sensor, LCD, and buzzer, programming in **Embedded C** using **Keil µVision**, and simulating the system in **Proteus** to achieve reliable real-time fire detection and alert generation.

TECHNICAL SKILLS

Programming Languages:

- C Language
- Python
- JAVA[Basics]
- Machine Learning

Core ECE:

- Analog & Digital Electronics
- Microprocessors & Microcontrollers
- Embedded Systems (Basic)
- VLSI Fundamentals

Tools:

- Visual Studio Code (VS Code)
- Microsoft Word
- MATLAB
- GitHub

Links:

GitHub-

<https://github.com/pilladevisridevi>

SKILLS

- Communication
- Teamwork
- Critical thinking
- Time management
- Leadership

Certifications

- Python Internship-[SkillDzire]
- Internet of Things-[NPTEL]
- SMART INDIA HACKTHON-2025
- Resonance-2026[BVCE]
- Embedded Systems Internship-[APSSDC]
- Quantum Computing course [APSSDC]

Languages

- Telugu [Native – Fluent]
- English [Intermediate]
